under the patronage of European Psychiatric Association**

20th MOSTAR'S PSYCHIATRIC SATURDAY

RESILIENCE IN HEALTH AND DISEASE

**Hotel „Mostar“, Mostar/Bosnia and Herzegovina
1st June 2024**

SECOND ANNOUNCEMENT

Dear Colleagues,

Mostar's Psychiatric Saturday is one day international symposium that included very actual and relevant topics from different fields of Psychiatry in last 19 years with involvement of the distinguished lecturers from the region. The Leadership of the Psychiatric Association of Bosnia-Herzegovina included our Symposium in the main psychiatric scientific events in Bosnia and Herzegovina with main aim to improve collaboration and stimulate creativity in the exchange and enrichment of knowledge and gathering of experts from our country and region.

The 20th Mostar's Psychiatric Saturday will focus on actual and for many of us quite new topic *Resilience in Health and Disease*. Resilience is most important in both health and disease as well as in recovery from different mental and somatic disorders. Scientific Programme will be important to all colleagues involved in the field of mental health as well as in primary health care and other health professionals.

I am sure that you will be able to attend and actively discuss during our Symposium like in previous years and contribute to success of 20th Saturday on June 1, 2024 from 9 AM (CET) in Hotel „Mostar” in Mostar, Bosnia and Herzegovina.

Welcome to Mostar!

President of the Organizing Committee
Academician Professor Dragan Babić, MD, PhD
